

Gonzalez Statement on Two-Week Spending Resolution

Washington, D.C. - Congressman Charles A. Gonzalez (TX – 20) today made the following statement after the House passed a two-week Continuing Resolution:

“Working families in America should not bear the burden of a government shutdown. I remain focused on working on a compromise for the remainder of this fiscal year that makes smart cuts but doesn’t threaten our investments in the future. However, Republicans continue to defend ‘So Be It’ spending cuts for vital services that threaten our long-term economic recovery and lead to massive job losses. While we all agree cuts are needed, we must work together to find a responsible compromise that will help create jobs, ensure economic growth and reduce the deficit.”
